

Bedside Quick Reference

NIGHTLY RITUAL (10:00 - 10:30 PM)

- 1 10:00 **Processing journal** — dump everything on your mind
- 2 10:10 **Precognitive journal** — tomorrow's plan
- 3 10:15 **Venting** — frustrations out, plan written, loop closed
- 4 10:20 **Close the journal** — physically shut it
- 5 10:25 **In bed:** tension-release (fists, shoulders, face) → 4-7-8 breathing x3 → progressive relaxation
- 6 10:30 **Self-hypnosis:** Island Cabin → Pillow Trigger → Delta Lock

"Heavy. Restored. Calibrated. Delta Lock."

If you wake during the night:

1. Hand on chest
2. One 4-7-8 breath (in 4, hold 7, out 8)
3. Depth Dial resets to DELTA LOCK
4. Back to delta in 60 seconds

Still awake? Miniature golf — play each hole in your mind. Most people sleep by hole 5.

TRIGGERS INSTALLED

Head on pillow + 4-7-8 → Depth Dial locks to DELTA. Four breaths to sleep.

Hand on chest + one 4-7-8 → Night-waking reset. Delta in 60 seconds.

10:30 PM → Nervous system shutdown begins automatically.

Vivid dream recalled → System clearing backlog. Proof it's working.
