IMPORTANT INFORMATION

Emotional responses: Hypnotherapy may bring up emotions, memories, or associations that cause temporary discomfort, including delayed emotional responses after sessions. This is a normal part of the therapeutic process.

Memory accuracy: Memories, images, or impressions experienced during hypnosis may be symbolic, metaphorical, or inaccurate. They should not be assumed to be factual representations of past events.

Experiences vary: Depth of trance, responsiveness, and progress vary between individuals and between sessions. Treatment is adjusted based on your response.

Confidentiality: Session content is kept confidential except where disclosure is required by law. If you are receiving services through a community service program, session content may be discussed with clinical supervisors for educational purposes, with your identity protected.

AI DISCLOSURE

This treatment plan was developed by the therapist with AI-assisted tools for documentation. All clinical decisions are performed by the therapist. AI is advisory only.
